LONDON OUT OF THE MARKET AND BULL NEWS WAS SCARCE.

Whispered Difficulties of a Big Operator in Kaffirs Depressed Prices-Lo-

cal Markets More Active. At New York yesterday money on call was easier at 14@14 per cent; last loan, 11/2 per cent; closed, 11/4/11/2 per cent.

Prime mercantile paper, 31/2/04 per cent. Sterling exchange was steady, with actual business in bankers' bills at \$1.871260 4.87% for demand, and at \$4.86% @4.86% for sixty days; posted rates, \$4.861/604.87 and \$4.88@4.88%; commercial bills, \$4.85%.

Silver certificates, 621/2c; bar silver, 62c; Mexican dollars, 481/2c. At London bar silver closed at 28 7-16d per ounce.

Total sales of stocks were 147,424 shares, including: Burlington & Quincy, 14,700; American Sugar, 24,700; Chicago Gas Trust receipts, 24,200; Louisville & Nashville, 10,300; New York Central, 6,500; Northern Pacific preferred, 7,900; Reading, 7,200; St. Paul, 9,300; New Jersey Central, 3,700. Proceedings were rather dull on the New York Stock Exchange yesterday and values dropped almost without exception or cessation. The situation abroad dominated the general tone of the dealings. The fact that there will be no more trading on the London Exchange until next Tuesday probably restricted any demand and influenced the minds of the timid ones there to realize profits as much as posto unload any holdings that seemed in danger from possible develop-ments in the Graeco-Turkish relations. Consols were down in London, and there was uneasiness apparent over the seeming waning of the accord of the powers on the Eastern question. The London market also suffered from demoralization in the

Kaffir securities and whispers of financial difficulties of a large operator in those properties. The depression thus caused was reflected here most obviously, as was natural, in the stocks held largely abroad, which showed marked declines. Any firmness in these shares above the London parity was met by heavy selling from London, the day's sales for London account being estimated at 25,000 shares. There was considerable realizing here also on the ground that to-morrow the exchange will be closed, and Saturday a short trading day and likely to be dull in consequence. The heaviness in New York Central was very noticeable, in view of the large hopes of a stimulus to the whole market that have been built on its refunding scheme first officially announced yesterday. The extension of the issue beyond the needs for the refunding gives rise to the argument that there will not be so large a reduction of fixed charges nor so large a consequent benefit to the stock as was anticipated. There was continued heavy liquidation in Chicago Gas and Sugar on almost purely professional dealings. Of a total of 153,000 shares sold Chicago Gas and Sugar absorbed 46,000 shares and Burlington, Louisville & Nashville another 34,000 shares. The Gas stock was very erratic, and after opening with sales running over a point above last night's close it traversed almost its entire range several times, finally closing with a net gain of %c. At one time the grangers developed a considerable strength, and there was some buying of Burlington on an unaccredited rumor that the company was about to refund its bonded debt. The rise in the grangers resulting, carried their prices above last night's closing, but subsequent declines left them with fractional net losses. This was true of the railway

curred in the last hour, but the market steadied in the final dealings and there was a general gain of a small fraction. Business in railway and miscellaneous securities was in light volume, with a sagging tendency, which was most pro-nounced in the issues having an international market, notably Northern Pacifics. The sales were \$781,000.

ist in general, the largest losses occurring

14c in Louisville & Nashville and in the grangers and coalers. Tennessee Coal and

but closing with a net loss of

iron was quite irregular, declining at one

only 14c. Bay State Gas and Hocking Val-ley developed some activity after being neglected for quite a long time, the form-

er losing 1/2c and the latter a point. The heaviest sales for London account oc-

in the international stocks, extending to

Park Suggestions.

To the Editor of the Indianapolis Journal: It is pleasing to see that in the present great interest in parks the sick are not forgotten. The desire for more space about the City Hospital has long been felt. The outlook south and west is far from pleasant, and the purchase of a few squares of low-priced land, cleared of the unsightly litter, so prevalent there, would add greatly to the comfort of all connected with that institution. But of course there must be a limit to the purchase and improvement of park grounds, and economy will be found necessary. Three main points are to be considered in the disbursement of park funds: The beautifying of the city, the health and comfort of the citizens and the fair distribution of the benefits to be derived. Health and comfort should come before mere beauty. A very little outlay would promote health, comfort and morality in the grounds purchased for the protection of streams. These grounds need not be wide; there should be no deep solitudes in "parks for the people." Those who can afford transportation can find these things farther away. Let the authorities consider that the chief need is health and comfort for the people. Let the whole system be narrowed, if need be, and all outside pieces unnecessary for stream protection be cut off for the present, and make small addition to the City Hospital CITIZEN. grounds.

Indianapolis, April 14. A Versatile Man. New York Evening Sun.

No man is necessary, but some men are The Hon Theodore Roosevelt is one of the latter. His removal from the office of police commissioner of New York to that of assistant secretary of the navy at Washington is a notable event. Mr. Roosevelt has a gift for making himself routine, for he has a tendency to do things. His career up to the present moment has modern Ulysses. He is known abroad as a distinguished American historian, in Washington for another reason, and here for a third. As a man of letters and authority on naval affairs, Mr. Roosevelt had a peculiar compliment paid to him when he was asked, with Captain Mahan, to contribute to the new history of the English royal navy.

WHEAT STARTS UPWARD

BULLS IN CONTROL YESTERDAY AND MAY FUTURES ROSE 1 3-8C.

Other Grain Was Firm and Closed Higher, While All Lines of Provisions Advanced.

CHICAGO, April 15.-Reports of ruined wheat crop came in from every direction to-day and were of such a doleful character that May wheat rose 1%c per bushel. Corn and oats had a checkered existence. but were firm in the end. closing about %c higher each. Provisions were strong without much activity, closing with advances of from 21/2c to 121/2c. To-morrow good Friday will be observed as a holiday on the board, There was but one speculative market at the opening on 'Change to-day. That was wheat and bull speculators had it all their corner of Market and Pennsylvania streets, Inown way for a time. Nothing could withdianapolis, Suite 229, first office floor, The draw the attention of the speculators from the marshaled phalanx of bullish market conditions which presented themselves. Higher foreign markets, moderate Northwestern receipts and confirmation of a heavy day's export business at the seaboard were good grounds of themselves for a brisk jump in price at the start, but added to the calamitous report from Springfield. Ill., regarding the winter wheat crop of the State which made the rather startling statement that not more than enough wheat for seed would be harvested in Illinois this season, the only surprise is that the first transaction did not show an advance of 2c or 3c instead of from 1/2c to %c. Opening sales of May were from 68%c to 68%c, against yesterday's closing price of 6814c and the scramble to cover which set in from every quarter had sent the price by 11 o'clock to 69%c, with but one or two triffing halts. Chicago received ten cars of wheat and Minneapolis and Duluth 271. A week ago the two latter cities got 264 cars and a year ago they received 295. The amount of export business reported done at New York yesferday was 464,000 bushels. Liverpool quoted an advance of id per cental at the opening. The clearances of wheat and flour from the principal Atlantic seaports were equal to 98,000 bushels. The small present shipment to foreign countries was about the only development of the situation which could be considered other than bullish. Later in the session the market became very unsettled. Such an advance as recorded was naturally very tempting and there was enough realizing Transfers, 15; consideration.....\$20,581 and short selling to force the price back to 69, but only for a short time. Reports of crop damage continued to come in, even far off California joining in the general complaint. A rally to 69% a69% c ensued and after two or three nervous fluctuations the market settled around 691/2. May was bringing 69% at the close. Corn was subjected to several bear raids. encouraged by the improving weather and by the reports of the knee-high corn in Texas. The strength of wheat, however, made shorts nervous and their covering was sufficient to hold prices steady on what would otherwise have probably been a weak market. Seaboard clearances were 823,000 bushels. May opened 1sc higher at 23%c, eased off to 231/2/223%c and recovered to 23%c, where it closed. In oats the covering of one large line was about the only feature. That with a generally good demand created a strong feeling and caused an advance early in the day. Selling became freer as prices soared upward and the early advance was eventtually lost. Seaboard clearances were 53,000 bushels. May opened %c higher at 16%c, advanced to 16%c, declined to 16%@16%c and rested at 16%@16%c asked. Provisions were strong without leading to much activity in the trading. Offerings were light. The opening advance, which was due principally to sympathy with the grain markets, was followed by some reac-

tion, but closing prices were at the best figures of the day. At the close May pork was 121/2c higher at \$8.40; May lard about 21c higher at \$4.20 and May ribs about 71 c higher at \$4.70. Estimated receipts for Friday-Wheat, cars; corn, 95; oats, 140; hogs, 20,000 head. The Quart-Shop Law. To the Editor of the Indianapolis Journal;

I see by to-day's Journal that some one else has discovered again, or concluded, that the new anti-quart-shop law is inoperative on account of the penalty. The best way to test it is in the courts, but in lieu of a Supreme Court decision opinions are cheap, and along with the many I ven-

It seems strange, however, to a layman

ABSTRACT OF TITLES. THEODORE STEIN, ABSTRACTER of TITLES

Corner Market and Pennsylvania streets, In-cianapolis. Suite 229, First Office Floor, "The Lemeke." Telephone 1766. that any good attorney would believe for a minute that the law is not operative. Whatever may be said about the penalty section of the original law, in its application to the amended sections, there can be no question about Section 2090 of the Revised Statutes of 1881, which reads as

follows:

"Whoever, by himself or agent, transacts any business or does any act without a license therefor, when such license is required by any law of this State, shall be fined not more than two hundred dollars, nor less than five dollars.' Any man, therefore, wno undertakes to sell without the necessary license allowed by the county commissioners is at once amenable to the section just quoted, because Section 5312 of the Revised Statutes of 1881 now reads as follows: "It shall be uniawful for any person, directly or indirectly, to sell, barter or give away, for any purpose of gain, any spirituous, vinous or malt liquors without first procuring from the board of commis-

sioners of the county in which such liquor

is to be sold, a license as hereinafter pro-There has been added to Section 5318 of the Revised Statutes of 1881 the following "Provided, that none of the provisions of this act shall apply to any person engaged in business as a wholesale dealer, who does not sell in less quantities than five gallons at a time. Hence any one who undertakes to sell in any quantity less than five gallons at a time, except a druggist selling on the written prescription of a reputable practicing physician, and who does not have a proper license, must be charged with selling without a license, and Section 2090 above quoted will furnish a penalty. I suppose it will not be questioned, however, that the original penalty section applies, if the sale be in less quantities than a quart at a time, or in any quantity to be drunk on the premises, which will include the vast majority of sales; but in case of an illegal sale of more than a quart to be taken off the premises, then let the charge be brought as having violated Section 250 above referred to. The case presented is so plain, it seems to me, that no hesitancy should be shown by any one in authority in enforcing the law against S. E. NICHOLSON. all violators. Kokomo, Ind., April 14.
